# Gnome Outliers

By Stephen Armour

They forced the gnome to sit by itself
at lunch hour
as it kept spazing out
and throwing food at everyone

Now it is watched
by a nearby gnome sniper
from the bushes
He always has his
Sniper rifle trained
On a gnome or another
at all times

OoohHhhoooOOOoo
We are going to start a
nasty rumour now
Well why do
Please excuse my
Bold show of courtesy!

# The Bitter Appreciator

By Stephen Armour

Knows how to like things
So much better than you
They hates you
For being so stupid at
appreciating things
why is it
they knows
how to be you better than you?
Because they are hoping to bill
        Someone
for it

# Security

By Stephen Armour

Rejoice
They didn't blow up
the world yesterday
tommorrow is looking
pretty good odds too!
:)

# Not You Science

By Stephen Armour

As far as science is able to
reassure you: you are
not you. Nor are you
me. If that is what you
were thinking and you
are Or wait i
wanted to
say you were.

## Fight Caesar Haters

By Stephen Armour

Why I want to fight
Julius Caesar.
To finally prove to all
my haters
who are always saying.
You can't beat up
Julius Caesar.
You cant't take Caesar
In a fair fight.
You got no chance
Against Caesar.

## Imposters

By Stephen Armour

Mommy why are there so many
Santas on main street?
collecting for charity?
they are just people dressed up?
does it make real Santa angry?
then they shouldn't make
real Santa angry
mommy
can we run them over
with our car?

# Quarter Triangles

By Stephen Armour

The questions of youth
I want to pour the coffee
No Dougie you little moron
You are far too completely
Stupid for such a thing
You will end up dumping
the boiling water all over your stupid
booger brained idiot head

Can I make toast then?
Maybe people would like
Some toast?
Yes?
Ok toast it is then
I will cut it
in quarter triangle shape
well there you go Dougie.
Acting like a lamebrained
twerpp again

## Medicine

by Stephen Armour

we all just want to care for some-one
we soon discover no one would
want to be cared for
that would be the worst thing
disempowering feelings of  obligation
no one could
withstand such individual robbery
no one would bear
being cared for
this is why we invented
the health services
to make sure
no one gets cared for

# Substitue Conspiracy

By Stephen Armour

Ok everyone
When the Substitute teacher
asks us to anonon
write our sexed questions
on a paper sheet and hand em
everyone write the same question;
Can a penis take a poop
inside a vagina?
And no one laugh
until they read it back to us.
and they all hid
their sense that
they didn t really know
and felt no one
    did        Correctly
the shy aflame
with infernal poo.

# Share Toads

By Stephen Armour

Giant neotropical Toads were deployed into Austrilia with the purpose of building the worlds largest scarf mine. This purpose had been given to themselves by themselves.

No one knew the consequences would be the amphibians enslavement of the austrialians. No one also knew the giant toads could weigh up to 7000lbs.

Things could never go back to the way things were.

Tammys Uncle emerged from the gleaming day woods hug-carrying
cute alien dolls with care and constraint
in equal measure.

Oh I hope they come alive when nobody is looking
and get up to all kinds of mischief
even though they are intending to be helpful
"Nope" said her Uncle
"Awww" Tammy sighed
They used to come alive...
Uncle Tammys uncle mused
OooHHHh?
But we killed them dead
Cant have mutant sentient dolls
from who knows where
running about
Space
We know where tey are from Uncle
They are from space
IS that so
Uncle grumbled
Yes
Space aliens are from space
Oh well
how very
clever of them

So whooooo
Are the dolls forrrrrrrrrr?
Oh the dollssss Wellll they
are for sharing
"OOohhh sharing is so important"
We should investigate the matter at once
Investigate what is that?
Investigate carefully
It looks like there is some kind
of class field trip ahead
No it is frogs a bunch of them
I recognize them from a website
Pretty sure they were at the grocery store
earlier
